

## Who we are:

The Department of Environment and Conservation exists to enhance the quality of life for citizens of Tennessee and to be stewards of our natural environment.

We foster a work environment that's inclusive as well as diverse, where our people can be themselves. Every idea and perspective is valued so that our culture reflects the people we serve.

Our Department is committed to providing a cleaner, safer environment that goes hand-in-hand with economic prosperity and increased quality of life in Tennessee. We deliver on our mission through managing regulatory programs that maintain standards for air, water and soil quality while providing assistance to businesses and communities in areas ranging from recreation to waste management. We manage the state park system and programs to inventory, interpret and protect Tennessee's rich natural, historical, and archaeological heritage.

## About the Division of Natural Areas:

Located within TDEC's Bureau of Parks and Conservation, the Division of Natural Areas tracks rare species across Tennessee, establishes the state's official rare plant list, provides data to conservation partners, oversees and implements ecological management of legislatively designated state natural areas, and guides the Bureau on conservation initiatives and land acquisition decisions. Division staff work closely with Tennessee State Parks, Division of Archaeology, and other conservation organizations throughout Tennessee.

## TDEC-Environmental Consultant 2 Middle Tennessee Stewardship Ecologist Division of Natural Areas Annual Salary Range: \$66,069 - \$105,369

The Middle Tennessee Stewardship Ecologist assists with management of legislatively designated state natural areas within Tennessee's Central Basin, Eastern Highland Rim, and the western portion of the Cumberland Plateau. This position will require some overnight travel and will require some long days within the 37.5-hour workweek. The position will report to the Central Office in Nashville or a field workshop just outside Nashville and will have the ability for some remote office work as needed.

Preferred candidates will have experience in conservation biology, natural resource management, native species conservation, or preserve / natural area management experience with a bachelor's degree in Natural Resource – Based Management (Natural Resources, Forestry, Wildlife Biology, Biology, Botany, Ecology, Environmental Science, Zoology or related field) or Parks & Recreation Management or related field.

This position will open for applications on May 25, 2023 and will close June 14, 2023. To apply please visit: <https://www.tn.gov/careers>.

### Highlighted Responsibilities

- Working knowledge of ecological concepts of Tennessee's fauna, flora, and natural communities
- Familiarity with conservation issues in Tennessee or the region
- Possess or have ability to obtain certification related to prescribed fire for management of conservation lands, including writing burn prescriptions or natural area management plans
- Experience with prescription and implementation of integrated pest management for treatment of invasive exotic species
- Ability to conduct public outreach related to natural areas preservation
- Familiarity with ArcPro Geographic Information Systems (GIS), Global Positioning System (GPS) units, and mapping mobile applications.
- Ability to operate various equipment used in land management (e.g., tractors, chainsaws, mowers, herbicide sprayers)
- Ability to conduct field work and site assessments, sometimes in difficult terrain and the ability to meet physical standards of [arduous wildland / prescribed fire certification](#).
